The company is Gold Sponsor at 'Smart Energy India' and will present its offering for the first time in India

Atos Origin, an international IT services company, launches its innovative smart energy offering of Atos WorldGrid in India. Atos WorldGrid is a cornerstone of Atos Origin's innovation and development strategy and focuses on offering smart energy solutions to enable energy efficiencies and increase sustainability, while improving operational performance. The company is Gold Sponsor at 'Smart Energy India' and will present its offering for the first time in India.

The availability of Atos WorldGrid smart energy offerings in India offers a strong growth potential, says the Global CEO of Atos WorldGrid, Jérôme de Parscau, who underlines the importance of this launch on the world stage: " Atos Origin has an ambitious innovation strategy and will play a key role in the revolution of "smart energy" through its worldwide expertise centralized into one subsidiary - Atos WorldGrid.

The launch of innovative smart energy offerings in India will help us to further grow our business in this fast growing market that offers considerable potential. Through the delivery of innovative solutions and being close to the customer with a long term partnership approach, we can add real business value to our clients".
